SUMMARY

Content strategy and creator growth operator, on both the platform and agency side: ran vertical content strategy and creator-growth operations for Douyin's photo-and-text platform at ByteDance (Beauty, Fashion & Lifestyle), analyzed content pools for supply opportunities across three TikTok/ByteDance teams, and currently grow a 44,000+ creator ecosystem at a TikTok Shop agency through tiering, education, campaigns, and ROI analysis. Data-backed and experiment-driven (SQL, Python, A/B testing); native Chinese, fluent English.

WORK EXPERIENCE

Outlandish (TikTok Shop Agency) | *Senior Data Analyst & Product Builder, Creator Operations* Sep 2025 – Present

- **Creator lifecycle at scale:** own operations for 44,000+ TikTok creators through a Creator CRM built from zero, covering onboarding, GMV-based tiering and segmentation, recruitment, video-performance tracking, and per-campaign P&L.
- **Creator strategy & retention:** designed an AI-guided planning tool that converts campaign performance into each brand's monthly creator strategy and GMV targets across 300+ brands (planning cycles from about 1 month to 7 days); built a creator recommendation engine that turns one-off collaborations into repeat, long-term creator relationships.
- **Campaign & event operations:** directed creator-facing operations for a 5,000+ creator live event, including creator training, on-site support, and an automated check-in and tiering platform that cut queues from 4 hours to 20 minutes.

IntelliPro Group | *Product Manager Intern, AI Sourcing* May 2025 – Sep 2025

- Drove a 0-to-1 AI candidate-sourcing tool piloted inside IntelliPro's ATS (multi-agent LLM pipeline, ~94% nDCG@30 offline), reporting directly to the CTO and CEO.

TikTok | *Product Manager Intern, Effect Creation Tools Team* Jan 2024 – Jun 2024

- **Content strategy for effects:** analyzed trending content to shape the effect roadmap, optimized creation and submission tools around emerging trends, and helped manufacture platform-level trends through S-tier effect launches.
- **Closing a 10x content supply gap:** led the department's P0 content-pipeline project: quantified category supply-demand and found editing effects had ~10x more demand (submission share) than supply, leaving users stuck with stale, repetitive content; diagnosed the content pool to identify high-performing categories wrongly filtered out by review rules, then redesigned sourcing and filter rules across the five-stage review funnel, scaling daily review submissions ~12x and restoring the flow of new, trending effects.
- **Content supply, 0 to 1:** drove TikTok's next-gen effect asset library, launching 4,000+ categorized assets (beauty, 3D, filters) with engineering, design, ops, QA, and legal; lifted submission penetration 38% and per-user content creation 55%, and as PMF owner translated creator interviews and A/B tests into product decisions.

TikTok | *Content Product Operations Intern (Data Track), Music Team* Aug 2023 – Jan 2024

- **Data science for editorial teams:** as the analyst for the Global Programming Team (English and K-pop editors plus local editors for Indonesia, Brazil, Mexico, Australia), built three self-serve dashboards, defined the content-health metric system (finish rate, skip rate, per-user stream duration), and coached non-technical playlist editors to use it, cutting curation time from 4 days to 2 and ad-hoc data requests 70%.
- **Popularity signals to content strategy:** analyzed song and playlist popularity across 5M+ records (SQL/Python), turning weekly insights into playlist-update recommendations (playlist WAU +18%) and market-specific content strategies for the New Release feature, benchmarked against Spotify and Apple Music; lifted CTR 20% and streaming time 13%.

ByteDance | *Content Product Operations Intern, Douyin Photo & Text Platform* Jan 2023 – Aug 2023

- **Vertical content & creator growth:** ran operations and strategy for Douyin's photo-and-text content platform, accountable for content production, submission activity, and quality metrics; built vertical-specific target-content and creator-growth strategies across Beauty, Fashion & Lifestyle based on vertical and creator analysis.
- **Creator growth operations:** defined and identified high-quality creators, then drove their growth through strategic traffic support, creator education, submission campaigns, 1:1 coaching of about 20 exemplar creators per vertical, and community operations, lifting active creators' submission frequency from 1.35% to 1.48% (+10%) and vertical views +7%.
- **Product-led content supply:** partnered with upstream products (Xingtu, Camera, main app) to ship potential-content mining, single and multi-image submission templates, and profile-page challenge rollouts, validated via A/B testing and driving photo-and-text submissions +7%.

SKILLS

- **Creator & Content Ecosystem:** Vertical Content Strategy, Creator Lifecycle & Segmentation (GMV Tiering), Creator Education & Campaigns, Community Operations, Ecosystem Health, ROI Analysis & Post-Mortems, Competitive & Trend Analysis
- **Analytics & Experimentation:** SQL (advanced), Python (pandas, numpy), Excel, A/B Testing & Experimentation, KPI & Success-Metric Definition, Funnel & Cohort Analysis, Dashboard Construction
- **Tools:** Tableau, Power BI, BigQuery, Snowflake, Amplitude, Mixpanel, Lark/Feishu
- **AI Leverage:** LLM-based content and creator tagging, AI workflow automation, Prompt Engineering
- **Languages:** English (fluent), Chinese (native)

EDUCATION

University of Arizona, *Master of Science, Business Analytics* May 2025

- **Coursework (all A/A+):** Statistics, Python, Database, Econometrics, Data Mining, Data Visualization, Big Data, Enterprise AI

Shanghai Business School, *Bachelor of Management, Business Administration* Jun 2024

Shanghai University of Finance and Economics, *Exchange Program, Business Administration* Jun 2023
